Tourist Map of Montenegro

Thurs., the young town of Budva, was built on a spacious plateau at the foot of Mount Lovcen, a small hill, with a Venetian fort, with its walls and towers, and its small church. Montenegro and its capital, Podgorica, is a land of contrasts, with rugged mountains and beautiful beaches.

But, in the area around Budva, the climate is more temperate, with milder winters and warmer summers. The beaches are often rocky and the sea is clean and clear.

The most popular town is the coastal town of Bar, which is known for its beautiful beaches and historic old town. The old town of Bar is a UNESCO World Heritage Site and is famous for its beautiful architecture, including the ancient city walls and the Bar Castle.
